

Biography

Ian Cramp BSc (Hons) CEng MIET MBIFM

Ian is an experienced consultant working with Coretex International Limited. He is a Chartered Electrical Engineer with over 30 years of European project management, estates and facilities management, expertise at Board level. Experienced in the effective establishment and control of a broad range of hard and soft FM services for both multi- and single site blue chip, high tech organisations.

Operates as a facilities management specialist in all areas of technical benchmarking and auditing. Highly experienced in providing strategic and technical training to all levels. Significant public speaking and PR.

Major projects include

- Full corporate FM management for major blue chip company headquarters including Head of FM and Security.
- Advised a number of public and private organisations including universities, hospitals, retailers, dealing rooms, banks and other corporate buildings. Regularly undertakes audits and produces FM regimes.
- Established major outsourcing specifications for BT and controlled over 3000 properties for them.

Ian has been Chairman of the SE Midlands area of the IET, Vice Chairman of the South Midlands IEE and President of Birmingham Electric Club
